MEMORANDUM FOR

THE SECRETARY OF STATE  
THE SECRETARY OF DEFENSE  
THE DIRECTOR OF CENTRAL INTELLIGENCE

SUBJECT: Report on Cambodia

Effective immediately the report on Cambodia requested by my memorandum of June 20 will no longer be required. Instead, the President has requested a weekly report which includes military assistance deliveries for the previous week. Deliveries should be reported in principal categories such as small arms, crew-served weapons, vehicles, communications equipment - radios, small arms ammunition and crew-served weapons ammunition. The report also should briefly summarize other actions of particular significance. These should include third country military forces in support of Cambodia, other third country assistance, and diplomatic steps which may have been taken.

The report should be kept on a close-hold basis and delivered directly to my office by close of business each Friday, commencing August 14, 1970.

MEMORANDUM FOR

RICHARD T. KENNEDY  
JOHN H. HOLDRIDGE

THROUGH:

Jeanne Davis *JMA*

FROM:

Al Haig *Al Haig*

The President has asked that we discontinue the biweekly report entitled, Actions on Cambodia. He has asked instead for a weekly report which lists only the amount of equipment, ammunition, weapons, etc. that have been shipped to Cambodia for the previous week. The report should also contain a very brief summary of other actions which are of sufficient significance to be of Presidential interest. In short, what the President would like to have is a very brief weekly update of significant assistance to Cambodia covering the period of the entire week. I think based on this modified Presidential requirement that we should revise the daily report system currently levied on the bureaucracy and merely ask for a weekly report which covers new items for the previous week. I believe if we had this report by the close of business each Friday we could then prepare it for the President for the opening of business each Monday morning. I will leave this up to you based on your own personal convenience and estimate of the best way to do it.
